

CRU Brings Global Cable Makers & Thought Leaders to London for First Time

CRU, leading provider of cable news, analysis and consulting is to hold its 14th *Wire & Cable Conference* from June 8 to 10, 2020. Attracting over 200 key executives, the conference is well established as the premier meeting place for the world's cable makers and the insulated wire and cable supply chain. Taking place in London for the first time in its history, the event is set to draw on even more market experts from across the wider CRU business to the interactive discussions and networking.

Offered will be presentations from leading global producers and consumers of wire and cable products for the energy, communication, transport and automotive sectors; representatives from across the copper, aluminum, optical fiber and associated materials supply chains.

Streamed sessions will allow for more in-depth discussion on insulated, winding and other specialty wire and cable products produced from copper, aluminum and optical fiber, coatings and the other materials and inputs that impact the bottom line for wire and cable producers, consumers and their supply chain.

The conference also represents a chance to see the latest wire and cable designs and technical innovations that have been applied to improve performance, increase efficiency and sustainability. The *CRU Wire & Cable Conference* will be held at **Leonardo Royal London St. Paul's**, London, England. Readers can use the discount code *WCT110* to receive 10% off the current rates.
