

20th

World Copper Conference 2022

28-30 March 2022 • Santiago, Chile

POST EVENT REPORT

20

22

There is no better way to make valuable connections with industry peers, and build your professional network in a business social environment.

“If you are in the copper industry, this is the event to attend.”

**Jorge Bande, Director,
Antofagasta plc**

AT A GLANCE

The conference, part of CESCO Week Santiago, constitutes one of the most important gatherings in the mining industry. This CEO-level meeting boasts an impressive delegation of industry decision-makers and is the best opportunity to hear from copper mining and smelting industry leaders.

The conference is known for its excellent content combining economic, financial, technical, political, and societal perspectives, to give a complete overview of the challenges and opportunities facing the industry.

ABOUT THE EVENT

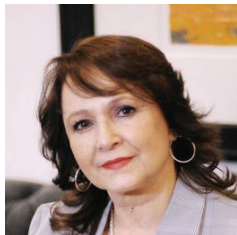

Annually, almost 500 senior executives, including the most influential copper market executives, convene at this crucial copper industry conference. Delegates and speakers at CRU's World Copper Conference are among the most knowledgeable participants in the industry, and an important source of opinion on the myriad issues that could influence the market.

The international attendees represent the complete copper value chain from miners, to smelters, traders and end-users.

- Hear supply side strategies from leading mining CEOs
- Understand financial and physical markets scenarios
- Gain an early read of Chinese demand
- Discover new technological developments
- Explore exploration and project finance
