Dampers For Sulphuric Acid Applications

- A range of specially engineered dampers for applications involving process gases containing SO$_2$/SO$_3$.
- Butterfly and louvre dampers designed to suit any duct size (typically Ø300mm – Ø3000mm).
- Special shaft seals give ZERO LEAKAGE of process gas to the atmosphere.
- Standard rigid ledge seal for 99% shutoff with optional sealing arrangements available for tighter shutoff.
- SS304H (Typical) construction for resistance to corrosion, high temperature, and creep.
- Designed for process temperatures of up to 800 Deg C.
- PED Compliant (as appropriate) for high pressure applications (≥0.5barg).
- Automation options include manual/electric/pneumatic to suit any process application.

For Sales and Technical Enquiries please contact:

Head Office:
Meadowbank House, Meadowbank Court, Eastwood, Nottingham, NG16 3SL
United Kingdom
Tel: +44 (0) 115 932 4046
Fax: +44 (0) 115 932 4047
Email: sales@dampertechnology.com

Indian Office:
Damper Technology India PVT Ltd
S.F.NO. 608/3A2B, 608/3A1B
Eachanari – Chettipalayam Road
Eachanari Post, Coimbatore 641021
